

The Compass For Your Cause Program

OPM is pleased to partner with BBVA Compass Bank

Support OPM and your child's success by opening a personal checking account at Compass bank.

Easy, hassle-free fundraising with no out of pocket costs.

If you're like most people, you want to support the causes that are important to you. However, these days, it can be difficult to find the money or the time. That's why we're so excited to be a member organization of the Compass For Your Cause program.

Through Compass For Your Cause, you'll be able to support us even more by doing something you do virtually every day-use your check card for everyday purchases. It really is that easy, and the funds do add up.

Through the Compass For Your Cause Program, each time a personal checking account is opened and OPM is mentioned (use code **72708**) \$20 goes toward OPM crime prevention programs. We teach children skills to stay crime free and be successful for life. A donation from Compass bank is made with each transaction (see attached) It is that easy!

Thank you for your support!

EARN CASH WHEN YOU REFER YOUR FRIENDS AND FAMILY

\$25 for each referral, then \$5 more, and \$5 more, and...

Here's how it works:

- 1.** Open a new BBVA Compass personal checking account* and tell your BBVA Compass Banker to apply our organization code listed below. **BBVA Compass will pay us a royalty of \$20 for your account opening.**
- 2.** Apply for a BBVA Compass Visa Check Card* tied to your account. **BBVA Compass will pay us a royalty of 0.25% of the purchase amount of every signature - based purchase you make with your card.***
- 3.** If you already have an existing account talk to your BBVA Compass Banker to link to OPM.

*You can even personalize your Check Card with virtually any image you choose!**

EXAMPLE:

100 of our members enroll in the program and open checking accounts:

100 x \$20 = \$2,000 in initial royalty payments

Over the course of one year, you each make an average of \$500 in qualifying Check Card purchases.

\$500 x 12 months = \$6,000 a year

\$6,000 x 0.25% = \$15

\$15 x 100 members = \$1,500

\$2,000 + \$1,500 = \$3,500
