

Operation Peace of Mind

presents

Linking students and families to a successful future through education, leadership, and good citizenship.

Link is a program that combines after school academic enrichment with the Teens, Crime, and the Community (Community Works) curriculum. The program is for two hours after school with the first hour to include academic enrichment and the second hour to include good citizenship lessons about crime prevention and leadership education.

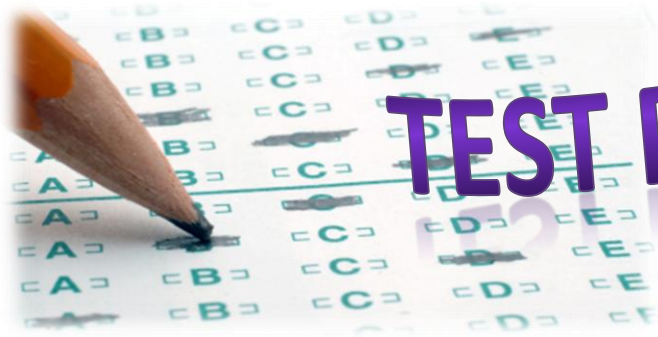

The program includes communication skills, knowledge of consequences of crime, and crime prevention skills. Classes include: **Bullying, Conflict Control, Gangs, Drug Abuse, Underage Drinking, and Diversity.**

Combining education, leadership, and citizenship skills will link students to the dreams they have for themselves. Link joins education and action to reduce teen victimization, and involve young people in service to their communities. The program develops self-esteem, leadership, and citizenship skills by engaging young people in action to positively affect the circumstances of their lives.

A 501(c)3 non profit organization

TEST PREPARATION

OPM provides students with national and international standardized tests preparation.

ENGLISH AS A SECOND LANGUAGE

Link provides a program for teaching English to non-native speakers.

COLLEGE PREPARATION

Link provides college preparation such as guidance, scholarship preparation, essay help, and career guidance.

AMBASSADOR PROGRAM

Link offers the Teens, Crime, and the Community (Community Works) curriculum. Upon completion of the program, students will become Operation Peace of Mind Youth Network Ambassadors. Ambassadors will have the opportunity to represent OPM internationally and mentor other young people around the world, as well as in their own communities.
